

Technical drawing of a road intersection. The drawing shows a 97.68° angle at the intersection vertex. The radii of the curves are R = 5.00 m and R = 20.0 m. The lane widths are 3.50 m and 3.00 m. A 2% slope is indicated. A label "Załom Z -2 α- 97,68° km 0+426,78 w prawo" points to the intersection vertex. The drawing is labeled "droga gruntowa" (gravel road).
